

SERVICES

Tiffany Hills Animal Hospital will provide the following services:

- Life stage primary and preventive healthcare
- Wellness exams and vaccinations
- Parasite treatment and prevention
- Treatment for medical problems

Robert E. Fortney, DVM

816.880.9500

- Preventive and emergency surgery
- Dental care
- Rehabilitation therapy

Dr. Fortney believes, "An ounce of prevention is worth a pound of cure." However, not all pets have the same risks. Each pet's risk needs to be assessed and the appropriate plan implemented.

9300 N. Congress Kansas City, MO 64153

REHABILITATION

Moving in with Dr. Fortney will be a licensed pet rehabilitation therapist. The space will contain modalities like ultrasound, laser, obstacle course and hydrotherapy for the rehabilitation of pets with orthopedic or neurological problems.

RESCUE

Tiffany Hills Animal Hospital works closely with the Fresh Start Sheltie Rescue and American Brittany Rescue organizations. We are a network of compassionate people with one goal, which is to save animals from neglect, nurture them, provide healthcare and restore their quality of life before placing them in a loveable home.

WELCOME

Robert E. Fortney, DVM

I'm excited to be providing veterinary medicine again, and I am happy to renew old relationships and develop new ones at **Tiffany Hills Animal Hospital**. The idea of building a new clinic evolved from repeated encounters with friends and pet owners, whom I served before taking a sabbatical from veterinary medicine. They have helped me realize two things ... I have missed the relationships with you and your pets, and I needed a new place to provide care for dogs and cats.

Share our excitement and come see us at Tiffany Hills Animal Hospital, your pet's home for primary and preventive veterinary healthcare.

PRODUCTS

Our product recommendations are based on two principals:

- What works best for the patient's problem and
- What is available at an affordable price.

Tiffany Hills Animal Hospital will retail a variety of non-prescription, prescription, dietetic and therapeutic food choices for dogs and cats that are made by brands you know. We will carry heartworm, and flea and tick preventive medication at prices competitive with online pharmacies.

Our pharmacy will have a complete inventory, as well as access to human pharmacies because generic medications lower the cost to treat your pets.

Our intention is to provide your pet with care that is an affordable price to you.
